# CANVA QUICK START GUIDE

Visit canva.com and sign up for a new account. Make sure to include your profession as Canva will optimize recommended designs for you!

Tips:
- Don't start from scratch! Select a pre-made design to edit. The designs are aesthetically pleasing and will save you time and money. Click on **Create a design** or **Find templates** to find something that will fit your needs.
- Use the free images available on Canva or check out the free images available on the websites listed on flls.org/brochures/#freeimages to avoid copyright issues.
- Create a library account or create a team and invite up to 10 members to join for free to share designs.
- Upgrade if you can afford it. Upgrading to *Canva for Work* ($12.95 for a monthly membership or $9.95/month for a yearly membership) offers you these features: access to 300,000 free images, unlimited folders, Magic Resize, and the ability to use the branding feature.
- Develop your brand (only available to *Canva for Work* users) by uploading your logo, customizing color palettes, and selecting fonts.

Support:
For troubleshooting and how-to articles, visit support.canva.com/. Select your topic along the left side to access helpful articles to guide you through using the website.

Visit canva.com/learn/design/tutorials/ to access free graphic design tutorials. Topics include: branding, layout, images, backgrounds, color, and more.
