5. TECHNOLOGY AND TELECOMMUNICATIONS

5.4	Annual number of visits to the library's web site	<p>Note: There has been a change in the way the number of visits are counted. Until we got a new circulation computer in September 2019 each tab in the browser opened up to our library website and actually inflated the number of visits to the website since we tend to open multiple tabs each day when we are working. Our new computer only opens to the website the first time we open the browser with Google as the default for subsequent tabs. This has decreased the number of "visits" to the website but would actually be a more reasonable number since we realistically aren't "visiting" our own website that many times a day. There are also fewer people using the library computers on a regular basis due to more people having internet access at home or using their own devices to use the wifi.</p>
